

**MGM RESORTS INTERNATIONAL STATEMENT ON COVID-19 CASE INVOLVING
YONKERS RACEWAY AT EMPIRE CITY CASINO**

Las Vegas, March 10, 2020 – MGM Resorts International (the “Company” or “MGM Resorts”) today was informed of a case of the coronavirus (COVID-19) involving an employee of the Standardbred Owners Association (“SOA”), the harness horsemen racing association, who was based in the Yonkers Raceway race office. The Company released the following statement:

“We just learned that an employee of the Standardbred Owners Association, working in the racing office of Yonkers Raceway, located next to the racetrack and paddock, tested positive for the coronavirus before passing away. His death was announced today by New Jersey officials, as he was a resident of the state. We believe the last time he was on the property to be approximately eight days ago. We offer our condolences to his family during this difficult time.

As a result of this development, the racetrack will be shut down as of this afternoon, and we have asked employees who worked in the immediate area to self-quarantine. We will continue to coordinate with and follow the guidance of health officials and support them in their response and prevention efforts.”

Information on MGM Resorts’ health and safety protocols:

MGM Resorts has maintained close coordination with health officials since the virus first became known and proactively communicates CDC prevention guidelines with guests and employees. The company has taken several steps to plan for potential health and safety risks, including investing time and resources to ensure its properties are prepared for the potential impacts of the coronavirus.

In addition to its pre-existing high standards of cleanliness, maintenance and sanitation at its properties, MGM Resorts in recent weeks implemented temporary enhanced cleaning procedures and protocols. They include:

- Placing hand sanitizer dispensing stations in high-traffic, visible areas such as entrances, exits, elevator landings, and hotel lobbies.
- Increasing the frequency of disinfectant procedures, with focus on:
 - Faucets and toilet flush levers
 - Doorknobs and locks
 - Entrance and exit doors and door handles
 - Handrails
 - Slot machines handles and armrests
 - Elevator buttons
 - Light switches

Statements in this release that are not historical facts are "forward-looking" statements and "safe harbor statements" within the meaning of the Private Securities Litigation Reform Act of 1995 that involve risks and/or uncertainties, including those described in the Company's public filings with the SEC. The Company has based forward-looking statements on management's current expectations and assumptions and not on historical facts. Examples of these statements include, but are not limited to, the anticipated shut down of the racetrack and the mitigation of the potential impacts of the coronavirus. These forward-looking statements involve a number of risks and uncertainties. Among the important factors that could cause actual results to differ materially from those indicated in such forward-looking statements include effects of economic conditions and market conditions in the markets in which the Company operates and competition with other destination travel locations throughout the United States and the world, the design, timing and costs of expansion projects, risks relating to international operations, permits, licenses, financings, approvals and other contingencies in connection with growth in new or existing jurisdictions and additional risks and uncertainties described in the Company's Form 10-K, Form 10-Q and Form 8-K reports (including all amendments to those reports). In providing forward-looking statements, the Company is not undertaking any duty or obligation to update these statements publicly as a result of new information, future events or otherwise, except as required by law. If the Company updates one or more forward-looking statements, no inference should be drawn that it will make additional updates with respect to those other forward-looking statements.
